Technical Skills

Design Software & Tools:: Adobe Creative Cloud, Figma, Framer, ReadyMag, Adobe Firefly, Runway, Midjourney

Web Development & No-Code: Framer, Responsive Design, Figma, Interactive Layouts, Custom Animations

Print & Production: DTP: Pre-press File Preparation, Layout Creation, Print Deliverables

Methodologies & Soft Skills: Brandbook Alignment, Identity Systems, Version Control, Client Feedback Management, Cross-functional Collaboration

Experience

Digital Designer — Honored Agency | *Adobe Creative Cloud, Framer, ReadyMag* **January 2026 – Present**

Interactive Web Development & UI

- Conceptualized, structured, and implemented a high-fidelity, **interactive studio website using Framer**, incorporating advanced responsive grid layouts & custom web animations while strictly maintaining **the agency's core visual identity**.
- Designed and managed diverse digital asset ecosystems according to **strict brandbooks**, producing scalable vector graphics and cross-channel marketing collateral **with 100% visual consistency**.
- Optimized and streamlined the studio's web asset pipeline by compressing heavy media files, resolving layout shifts, and refactoring Framer components for near **30%**

Presentation Design & Layout Assembly

- **Assembled high-impact** director's treatments and multi-page corporate presentations using ReadyMag, managing complex typographic hierarchies, editorial layouts, and precise image retouching **to capture new international clients.**
- Developed cinematic visual materials under strict adherence to corporate identity systems, ensuring high-end asset presentation **for global brand pitches.**

Agency Collaboration & Feedback Integration

- Collaborated daily in an agile agency pipeline with Creative Directors and Project Managers, rapidly integrating multi-stakeholder feedback and delivering production-ready assets **under tight broadcasting deadlines**.
- Coordinated cross-functional design handoffs, ensuring all digital deliverables met strict technical specifications and **premium design standards before client review.**

UI/UX Designer — DoGood Impact Inc | *Figma, Adobe illustrator, Adobe Photoshop* **June 2024 — December 2025**

User Interface & Layout Design

- Designed structured, multi-device layouts and optimized digital graphics **with a focus on information architectur**e, transparency, and user retention for ethical giving platforms.
- Translated qualitative user research insights into low-to-high fidelity wireframes and interactive prototypes, ensuring that text alignment, custom iconography, and imagery systems **perfectly matched the brand's identity system.**

Product Optimization & Flow Restructuring

- Streamlined complex dashboard structures and form layouts into simple, accessible visual interfaces, which **reduced user friction** and **optimized the core** digital onboarding journey.
- Re-architected confusing multi-step flows and interactive elements based on user pain points, significantly **increasing platform trust**, data transparency, **and overall user engagement.**

Education

University of the National Education Commission **Expected Graduation September 2027**

Bachelor of Visual Communication *Grade: 4.8/5.0* *Krakow, Poland*
